Subject: Concurrence is needed

Dear All,

I'm reviewing STICS submission of the manuscript "**Ordinal Dose-Response Modeling Approach for the Phthalate Syndrome**" by Todd D. Blessinger, Susan Y. Euling, Lily Wang, Karen A. Hogan, Christine Cai, Gary Klinefelter, and Anne-Marie Saillenfait (manuscript and appendix are attached). Listed co-author(s) are members of your Branch. According to the 'ORD Scientific and Technical Work Products Clearance Policy and Procedures'

Ex. 6 Internal Web Address

have to "Work with the ORD co-authors' first-line supervisors to resolve any significant concerns" or get your concurrence (that would be great).

Please let me know if you have any concerns about co-authorship of your Branch member(s) in this manuscript.

Thank you,

Viktor.
